PAPER 1

HONG KONG EXAMINATIONS AND ASSESSMENT AUTHORITY HONG KONG DIPLOMA OF SECONDARY EDUCATION EXAMINATION 2015

BUSINESS, ACCOUNTING AND FINANCIAL STUDIES PAPER 1

8.30 am – 9.45 am (1 hour 15 minutes) This paper must be answered in English

GENERAL INSTRUCTIONS

- (1) There are **TWO** sections, A and B, in this Paper. Section A consists of multiple-choice questions and Section B contains short questions.
- (2) Answer ALL questions in Section A. There are two parts in Section B: Answer ALL questions in Part 1 and ONE of the two questions in Part 2.
- (3) Answers to Section A should be marked on the Multiple-choice Answer Sheet while answers to Section B should be written in the Answer Book. In the Answer Book, start EACH question (not part of a question) on a NEW page.
- (4) The Answer Sheet for Section A and the Answer Book for Section B must be handed in separately at the end of the examination.

INSTRUCTIONS FOR SECTION A (MULTIPLE-CHOICE QUESTIONS)

- (1) Read carefully the instructions on the Answer Sheet. After the announcement of the start of the examination, you should first stick a barcode label and insert the information required in the spaces provided. No extra time will be given for sticking on the barcode label after the 'Time is up' announcement.
- (2) When told to open this book, you should check that all the questions are there. Look for the words 'END OF SECTION A' after the last question.
- (3) All questions carry equal marks.
- (4) **ANSWER ALL QUESTIONS.** You are advised to use an HB pencil to mark all the answers on the answer sheet, so that wrong marks can be completely erased with a clean rubber. You must mark the answers clearly; otherwise you will lose marks if the answers cannot be captured.
- (5) You should mark only **ONE** answer for each question. If you mark more than one answer, you will receive **NO MARKS** for that question.
- (6) No marks will be deducted for wrong answers.

Not to be taken away before the end of the examination session

SECTION A (60 marks)

There are 30 questions in this section. Answer ALL questions. Choose the best answer for each question.

- 1. A limited partner
 - A. is a nominal partner
 - B. is not liable for the debts of a partnership
 - C. does not need to invest money into a partnership
 - D. does not take part in the management of a partnership
- 2. Which of the following statements about stakeholders of a company is correct?
 - A. Competitors are not stakeholders of a company.
 - B. Stakeholders of a company would be affected by the decisions made by the company.
 - C. All stakeholders can share the assets of the company upon its liquidation.
 - D. A client becomes a company's stakeholder only after he/she has settled his/her outstanding debts to the company.
- 3. Susan is the supervisor of a group of fashion designers in a garment firm. She only gives broad directions to the designers, allowing them to complete the assigned tasks in their own ways.

Susan is adopting the style of leadership.

A. autocratic

B. centralised

- C. laissez faire
- D. participative
- 4. In October 2014, a firm had the following purchases and returns:
 - Oct 2 Purchased goods on credit from Mr Yu for \$2500
 - 9 Purchased goods in cash for \$2000
 - 17 Returned goods to Mr Yu for \$300
 - 26 Purchased goods on credit from Miss Lui for \$3200 with a cash discount of 10% if payment is made within 30 days

Based on the above information, what should be the total amount of purchases recorded for the month of October 2014 in the Purchases Journal?

A.	\$5380
В.	\$5700
C.	\$7400
D.	\$7700

5.

In 2011, the HKSAR Government issued a 3-year iBond. It is a _____ market instrument and was issued in the ______ market.

	(I)	(II)
A.	money	primary
В.	money	secondary
С.	capital	primary
D.	capital	secondary

Which of the following show the importance of management?

- (1) enhance the efficient use of resources of the business
- (2) help staff achieve the goal of the business effectively
- (3) prevent the business from being affected by external factors
- A. (1) and (2) only

6.

- B. (1) and (3) only
- C. (2) and (3) only
- D. (1), (2) and (3)

7. What is/are the main purpose(s) of preparing a trial balance?

- (1) record the daily transactions of the business
- (2) reflect the financial performance of the business
- (3) check the arithmetical accuracy of bookkeeping entries
- A. (1) only
- B. (3) only
- C. (1) and (2) only
- D. (2) and (3) only
- 8. Mr Cheung plans to buy a residential property. Which of the following types of credit arrangement is most appropriate for him?
 - A. credit card
 - B. personal loan
 - C. mortgage loan
 - D. bank overdraft
- 9. In which of the following area(s) can mobile phone applications that deliver real-time stock data help enhance the quality of information?
 - (1) accuracy
 - (2) timeliness(3) understandability
 - ······
 - A. (1) only
 - B. (2) only
 - C. (1) and (3) only
 - D. (1), (2) and (3)
- 10. Which of the following is not a nominal account?
 - A. salaries account
 - B. purchases account
 - C. returns inwards account
 - D. cash at bank account

2015-DSE-BAFS 1-3

- 11. Which of the following is/are the characteristic(s) of small and medium enterprises (SMEs) in Hong Kong?
 - (1) They are responsive to market changes.
 - (2) They have a tall-type organisational structure.
 - (3) Their tax rate is different from that of large companies.
 - A. (1) only
 - B. (2) only
 - C. (1) and (2) only
 - D. (2) and (3) only

 - B. (2) only

C. (1) and (3) only

- D. (2) and (3) only
- 28. Which of the following are the responsibilities of an individual investor?
 - (1) understand the terms before signing a contract
 - (2) check account statements from time to time
 - (3) attend the Annual General Meetings of the company invested in
 - A. (1) and (2) only
 - B. (1) and (3) only
 - C. (2) and (3) only
 - D. (1), (2) and (3)

Based on the following information, answer Questions 29 and 30.

Nelson established his firm on 1 January 2014. Its sales and purchases for the year ended 31 December 2014 were \$540 000 and \$230 000 respectively. The gross profit ratio for 2014 was 60% while the net profit margin was 35%.

29. What is the amount of inventory of the firm as at 31 December 2014?

A.\$10 000B.\$12 000C.\$14 000D.\$18 000

30. What is the amount of expenses of the firm for 2014?

A.	\$135 000
B.	\$189 000
C.	\$216 000
D.	\$324 000

END OF SECTION A

SECTION B (30 marks)

2.

Part 1 (20 marks) Answer ALL questions in this part.

1. Annie operates a small guest house on Lamma Island for foreign travellers. She sets up an Internet booking system for the guest house, with the following goal:

"To increase the number of Internet bookings substantially in the near future"

(a) Briefly explain two characteristics of a SMART goal that are missing from the above goal. (4 marks)

(b) Explain one political factor and one legal factor that may affect Annie's business. (4 marks)

(a) Explain the consistency principle in accounting.

(2 marks)

(b) A firm bought a motor van for business use and paid \$175 000 from its bank account. The list price of the motor van was \$200 000 and a discount of \$25 000 was given by the vendor.

State the amount to be recorded for the motor van in the books of the firm. Explain your answer with a relevant accounting principle or concept. (3 marks)

3. Calvin is a retail investor. He invested \$200 000 to buy shares listed on the Hong Kong Stock Exchange through a licensed stockbroker in Hong Kong. As the broker defaulted, Calvin was not able to get back his investment. He therefore applied to the Investor Compensation Fund to claim the loss.

- (a) Explain two ways in which investing in shares might benefit an investor. (4 marks)
- (b) (i) In the above case, Calvin has fulfilled the conditions to receive compensation from the Investor Compensation Fund. Give any two of them. (2 marks)
 - (ii) What is the maximum amount of compensation that Calvin can get from the Investor Compensation Fund? (1 mark)

Part 2 (10 marks) Answer ONE question in this part.

4. Peter is the sole owner of a garment firm. The following balances as at 31 December 2014 were obtained from the firm:

\$
430 000
?
398 000
180 000
210 000
986 000
82 000
383 000
320 000

(a) Prepare a statement of financial position for Peter's business as at 31 December 2014. (5 marks)

Peter plans to expand the business and set up three departments to take care of the garment business in Hong Kong, Macau and Shenzhen respectively. A business consultant reminds him that other forms of departmentalisation may also be considered.

(b) State the form of departmentalisation planned by Peter.

(1 mark)

(c) Briefly describe two other forms of departmentalisation that could be adopted by Peter's business. (4 marks)

5. John commenced a trading firm on 1 January 2014 as the sole owner. The financial information of the firm for the year ended 31 December 2014 is as follows:

\$
25 500
23 600
88 000
227 500
128 000
9 230
492 000
120 000

(a) Prepare an income statement for John's business for the year ended 31 December 2014. (5 marks)

To raise money for expansion, John wants to change the form of business ownership of the firm. He plans to invite five people to invest in and join the business as owners. After expansion, all owners shall have limited liability for the firm. Their ownership cannot be freely transferred.

- (b) According to the above information, which form of business ownership will John adopt for the expansion? (1 mark)
- (c) Apart from the restriction in ownership transfer, suggest two other disadvantages for the form of business ownership mentioned in (b), as compared to a sole proprietorship. (4 marks)

	31	Bank charges	30		60 380

Additional information:

- (i) On 18 December 2014, a customer, Sunny Ltd, made a credit transfer to the company's bank account without notifying the company.
- (ii) On 21 December 2014, Cheque 120485 was received from a customer, Yip's Ltd, but it was recorded as a payment in the cash at bank account.

REQUIRED:

٠.

(a) Update the cash at bank account of Jaden Company.

(5 marks)

(b) Prepare a bank reconciliation statement as at 31 December 2014, commencing with the updated cash at bank balance. (3 marks)

(Total: 8 marks)

2. The following information was extracted from the books of Tommy Limited for the month of March 2015:

	\$
Allowances from suppliers for damaged goods	990
Bad debts written off	1 410
Contra between sales ledger and purchases ledger	4 500
Purchases ledger control account balance, 1 March 2015	8 900
Cash purchases	13 200
Cash sales	22 100
Credit purchases	35 400
Credit sales	89 000
Discounts allowed	1 230
Discounts received	670
Interest charged on overdue customers	190
Payments to suppliers by cheques	19 800
Returns inwards	890
Returns outwards	560

REQUIRED:

(a) Write up the purchases ledger control account for the month ended 31 March 2015.

(b) State one advantage of maintaining control accounts.

(1 mark)

(4 marks)

(Total: 5 marks)

3. Ivan Company had the following cost information for 2014:

	\$		
Beginning inventories:			
Direct materials	30 000	· .	
Work in progress	18 000		
Finished goods	48 000		
Carriage inwards on direct materials	20 000		
Direct materials purchases	140 000		
Direct labour	380 000		
Ending inventories:			
Direct materials	55 000		
Work in progress	33 000		
Finished goods	38 000		
Production overheads	330 000		

¢

REQUIRED:

Calculate the following items for 2014:

(a)	Cost of direct materials consumed	(1 mark)
(b)	Prime cost	(1 mark)
(c)	Cost of goods manufactured	(1 mark)
(d)	Cost of goods sold	(1 mark)
		(Total: 4 marks)

Peter Company plans to sell 3000 pairs of shoes at \$350 per pair. Relevant financial information is given below:

	\$
Fixed production overheads	150 000
Fixed selling and administrative expenses	228 000
Direct materials per pair of shoes	45
Direct labour per pair of shoes	55
Variable production overheads per pair of shoes	18
Sales commission per pair of shoes	22

REQUIRED:

٢,

4.

(a) Calculate the contribution margin for each pair of shoes.

(2 marks)

- (b) How much sales revenue does Peter Company have to earn in order to achieve a target profit of \$168 000? (2 marks)
- (c) If the price is set at \$365 per pair, it is estimated that the sales quantity will drop from 3000 pairs to 2700 pairs. Should Peter Company raise the price? Support your answer with calculations. (3 marks)

(Total: 7 marks)

SECTION B (36 marks)

Answer ALL questions in this section.

5.

Ron, Sam and Tim were in partnership sharing profits and losses in the ratio of 1:2:3 respectively. An extract of the account balances as at 31 December 2014 is given below:

	\$
Capital accounts:	
- Ron	112 300
- Sam	30 000
- Tim	190 700
Office equipment, net	465 000
Inventory	83 000
Trade receivables	62 000
Cash at bank	4 000
Loan from Tim	80 000
Trade payables	201 000
Inventory Trade receivables Cash at bank Loan from Tim	83 000 62 000 4 000 80 000

On 1 January 2015, Sam was declared bankrupt and the partnership was dissolved. The relevant information is as follows:

- (i) Ron took over the office equipment at 50% of its net book value.
- (ii) Tim took over all the inventory to settle 60% of his loan to the partnership. The partnership paid the outstanding loan balance by cheque.
- (iii) Ron was responsible for collecting all the trade receivables for the partnership. Finally he collected \$60 000 and deposited the amount into the partnership's cash at bank account. The partnership agreed to pay him a handling fee of 2% on the amount collected.
- (iv) The partnership received a 2.4% discount on the trade payables, which were settled by Tim'on behalf of the partnership.
- (v) Realisation expenses of \$3800 were paid by cheque.
- (vi) Sam was unable to settle his account and it was agreed that his deficiency was to be borne by the remaining partners according to their profit and loss sharing ratio.

REQUIRED:

Prepare the following accounts:

- (a) realisation account
- (b) the partners' capital accounts in columnar form

(5 marks)

(5 marks) (Total: 10 marks)

- The trial balance as at 31 December 2014 for Elsa Company failed to agree and a suspense account was opened to record the difference. The following errors were subsequently discovered:
 - (i) Credit sales for \$500 had been overlooked by the bookkeeper and no record was made in the books.
 - (ii) Payment of \$3000 for rates was debited to the rental deposit account.
 - (iii) An electricity bill for December 2014 amounting to \$2500 was recorded as \$250 in the books. The bill would be settled in January 2015.
 - (iv) A cheque for \$1200 received from a customer, Windy Ltd, had been entered in the cash book only.
 - (v) Discounts received of \$540 had been credited to the purchases account as \$450.
 - (vi) On 31 December 2014, Elsa, the sole owner of the company, took over one of the company's motor vans for her personal use. She thought that she was just using her own asset and therefore she did not make any accounting record for this. The motor van cost \$80 000 and had a net book value of \$50 000 on 31 December 2014.

REQUIRED:

6.

- (a) Prepare the necessary journal entries to correct the above. Narrations are not required. (7 marks)
- (b) Identify the type of accounting error made in each of items (i), (ii) and (iii) above. (3 marks)
- (c) Identify and explain the accounting principle or concept that has been violated in (vi) above. (3 marks) (Total: 13 marks)

7. Susan Café operates its own bakery and produces cookies and cupcakes. Information on the two products is as follows:

	<u>Cookies</u>	<u>Cupcakes</u>
Selling price per box	\$290	\$390
Direct material cost per box	\$20	\$120
Direct labour hour per box	$\frac{1}{3}$ hour	$\frac{1}{2}$ hour
Labour wage rate per hour	\$90	\$90
Variable production overheads per box	\$15	\$15

The bakery produces and sells 2400 boxes of cookies and 1800 boxes of cupcakes per year. Production overheads are allocated on the basis of direct labour hours. Details of annual fixed production overheads for the bakery are as follows:

	\$
Supervisor's salary	286 000
Depreciation on equipment	80 000
Rent	144 000

REQUIRED:

Calculate the following for the bakery: (a)

(i)	the predetermined fixed production overhead absorption rate	(2 marks)
(ii)	the total production cost per box of cupcakes	(2 marks)

the total production cost per box of cupcakes (ii)

A local supplier offered to supply Susan Café with all the cookies and cupcakes it needed. The prices were \$170 per box for cookies and \$270 per box for cupcakes. The offer was conditional that Susan Café must buy both products. In other words, the supplier would not supply just one type of product for the price indicated. If the offer was accepted, all the equipment would be scrapped and the bakery would be closed.

REQUIRED:

Explain, with supporting calculations, whether Susan Café should continue to produce its own cookies (b) and cupcakes, or purchase them from the local supplier. (4 marks)

Finally, Susan Café decided to produce its own products, for better quality control. The bakery is operating at only 85% of its full capacity of 2000 direct labour hours per year. It is therefore decided that one more product, shortbread, will be produced to fully utilise the capacity of the bakery.

The estimated annual demand for shortbread is 3900 boxes and the selling price is \$370 per box. Additional information on the production of shortbread is provided below:

Direct material cost per box	\$180
Direct labour hour per box	$\frac{1}{6}$ hour
Labour wage rate per hour	\$90
Variable production overheads per box	\$15

REQUIRED:

- Calculate the contribution per direct labour hour for each of the three products. (2 marks) (c) (i)
 - To maximise the total contributions of the bakery at its full capacity, calculate the annual (ii) production quantity for each of the three products. (3 marks)

(Total: 13 marks)

Additional information:

- (i) It is the company's policy to depreciate its non-current assets on a straight-line basis at an annual rate of 10%. Depreciation expenses and loss on disposal are classified as administrative expenses.
- ٠.
- (ii) On 1 October 2014, Nancy Company Limited traded in a piece of used office equipment with a cost of \$100 000 for a new model. The trade-in value was agreed at \$22 000. The old office equipment had an accumulated depreciation of \$52 500 on 1 January 2014. No accounting record had been made for the above arrangement. In respect of this trade-in, the company was required to pay \$140 000 for the new office equipment, \$5000 for its delivery, \$1000 for the insurance during its delivery and \$3000 to train staff to operate the new office equipment. All these expenditures had been treated as administrative expenses for 2014.
- (iii) On 1 July 2014, \$150 000 6% debentures were issued, interest being payable half-yearly on 1 January and 1 July.
- (iv) In December 2014, goods invoiced at \$30 000 were sent to a customer on a sale-or-return basis. These had been recorded as credit sales for the year. As at 31 December 2014, 75% of these goods were accepted by the customer. The remaining 25% had been included in the closing inventory at cost.
- (v) An invoice for selling expenses of \$2000 was received but not yet recorded in the books.
- (vi) Inventory as at 31 December 2014 had a cost of \$290 000. 20% of the inventory was slightly damaged and had a net realisable value of \$49 980.
- (vii) On 31 December 2014, the board of directors resolved to transfer \$100 000 to general reserve.

REQUIRED:

(a)

And a state of the second s

- Prepare a statement to calculate the cost of the new office equipment in (ii) above. (3 marks)
- (b) Prepare for Nancy Company Limited the income statement for the year ended 31 December 2014 and the statement of financial position as at that date. (14 marks)
- (c) Explain, with a relevant accounting principle or concept, the accounting treatment of (vi) above.

(3 marks)

(Total: 20 marks)

9. Pearl Ltd had the following financial information related to the year 2014:

As at 1 January 2014	\$
Shareholders' equity	300 000
Retained profits	40 000
Total assets	343 000
Non-current assets	101 000
Inventory	65 000
Current liabilities (Note (i))	43 000
For the year ended 31 December 2014	\$
Cash sales	60 000
Credit sales	390 000
Cash purchases	110 000
Credit purchases	132 000
Increase in current assets (not including inventory)	27 000
Increase in trade payables	3 000

The retained profits as at 31 December 2014 amounted to \$128 000 and no profit appropriations were made during the year.

- (i) Pearl Ltd had trade payables only as its current liabilities.
- (ii) An electricity bill for December 2014 amounting to \$2500 was received on 16 January 2015. As the payment would be made in February 2015, no accounting record had been made by the bookkeeper.
- (iii) A physical inventory count on 4 January 2015 showed that the value of inventory on that date was \$31 700, which had been used for the computation of profits for the year 2014. During the period 1 January to 4 January 2015, there were credit purchases with a total list price of \$3000. A trade discount of 10% had been given by the supplier on these purchases and a 2% cash discount would be received if the settlement was made in two weeks. Goods costing \$5000 were sold during these 4 days.

REQUIRED:

(a)	Identify the relevant accounting principle or concept violated in (11) above. Briefly explain.		
(b)	Calc	ulate the following amounts as at 31 December 2014:	
	(i)	inventory	(2 marks)
	(ii)	current assets	(3 marks)
(c)	Calc	ulate (to two decimal places) the following ratios for the year 2014:	
	(i)	net profit ratio	(2 marks)
	(ii)	quick ratio	(2 marks)
	(iii)	trade payables turnover (in times)	(2 marks)
	(iv)	inventory turnover (in times)	(2 marks)

Lily Ltd and Jasmine Ltd are two listed companies in the same industry and have a similar scale of production. They have a similar share price. Their financial ratios for the year 2014 are shown below:

	Lily Ltd	Jasmine Ltd
Return on capital employed	31%	15%
Gearing ratio	25%	65%
Earnings per share	\$18	\$15.2

REQUIRED:

(d) Pearl Ltd is planning to invest a designated amount of cash, for the same percentage of shareholding, in one of the above companies. Advise and explain which company Pearl Ltd should invest in based on the three ratios above. (4 marks)

(Total: 20 marks)

END OF PAPER

This document was prepared for markers' reference. It should not be regarded as a set of model answers. Candidates and teachers who were not involved in the marking process are advised to interpret its content with care.

SECTION B

General Principles of Marking

- 1. The answers given in this marking scheme and those brought up in light of live scripts and discussions at the Markers' Meeting are 'suggestions' only. There are answers that are not mentioned but nevertheless are equally valid.
- 2. Where the number of points required is specified in a question, the first listed points will be marked up to the number required, and other points crossed out as 'excess'.
- 3. The guidelines for points of 2 marks each are as follows:

	0	2	
	0 mark	:	irrelevant or ambiguous answers
	1 mark	:	relevant phrases containing key words that answer the question
	2 marks	:	a relevant answer with a brief explanation of the concept/key words stated
*****	*****	****	*****

PART 1

QUESTION 1 Marks (a) Characteristics: Max. 4 measurable: the goal does not specify a quantified amount of increase time-bound: the goal does not specify the targeted timeframe specific: the number of Internet bookings may refer to the log-in times of customers, successful bookings or the bookings that lead to actual rental realistic/attainable: the goal may not be achievable, e.g. due to the shrinking tourism business around the world (2 marks for each relevant characteristic, max. 4 marks) (b) Political factor: Max. 2 political stability of Hong Kong / travellers' home countries the relationship between Hong Kong/China and the travellers' home countries (2 marks for each relevant political factor, max. 2 marks) Legal factor: Max. 2 regulations related to guest house/hotel licensing regulations related to visa requirement (2 marks for each relevant legal factor, max. 2 marks) 8 marks **QUESTION 2** Marks ٠. The consistency principle: 2 (a) The accounting treatment of similar items should be the same in an accounting period and from one period to another (b) \$175 000 1 Historical cost concept-1 The motor van should be recorded at the actual cost to the business, that is, the net 1 price after deducting discount. 5 marks **QUESTION 3** Marks (a) Benefits: Max. 4 capital gain through the price appreciation of the shares investment income through share dividend voting rights that can affect company management (2 marks for each relevant benefit, max. 4 marks) Conditions fulfilled: (b)(i) Max. 2 Calvin is a retail investor Calvin suffers pecuniary losses as a result of the default of a licensed stockbroker The shares are exchange-traded products in Hong Kong (1 mark for each relevant condition, max. 2 marks) \$150 000 1 (ii) 7 marks

QUESTION 9

QUI	ESTR	JN 9	Marks
a)		Accrual concept is violated.	1
-		Revenues and expenses are recognised and included in the financial statements when they are earned or incurred, not when they are received or paid.	1
		Therefore, the electricity expenses should be recorded in the financial statements of 2014, though it was still unpaid at the year end.	1
			(3)
)	(i)	Inventory	
		= \$31 700 - (\$3000 × 0.9) + \$5000	2
		= \$34 000	<u>ک</u>
	(ii)	Current assets $-(f^{2}, 42, 000, -f^{1}, 000, -f^{2}, 000, -f^{2}, 4000)$	
		$= (\$343\ 000 - \$101\ 000) + \$27\ 000 - (\$65\ 000 - \$34\ 000)$ $= \$238\ 000$	3
	~		
;)	(i)	Net profit ratio: $[(\$128\ 000 - \$40\ 000) + (\$34\ 000 - \$31\ 700) - \$2500] \times 100\%$	
		390 000 + 60 000	
		$=\frac{\$87\ 800\times100\%}{\$450\ 000}$	
		= 19.51%	2
	(ii)	Quick ratio:	
	(11)	\$238 000 - \$34 000	
	٢,	\$43 000 + \$3000 + \$2500	
		$=\frac{\$204\ 000}{\$48\ 500}$	
		= 4.21:1	2
	(iii)	Trade payables turnover (times) \$132 000	
		$=\frac{3132000}{(\$43000 + \$46000)/2}$	
		$=\frac{\$132\ 000}{100}$	
		\$44 500 = 2.97 times	2
	(iv)	Inventory turnover (times) = \$65 000 + (\$110 000 + \$132 000) - \$34 000	
		(\$65 000 + \$34 000) /2 \$273 000	
		$=\frac{3275000}{$49500}$	
		= 5.52 times	2 (13)
l)	_	Pearl Ltd should invest in Lily Ltd.	(13)
	Li	ly Ltd is a better investment because it has	
		higher return on capital employed: it has higher profitability with more efficient use of its capital to generate profits.	1
		lower gearing ratio: it has lower degree of leverage and hence lower risk and financial burden.	1
		higher earnings per share: it has higher profitability and the amount of profits earned for each outstanding share is higher.	1
